

TITLE 267 – NEBRASKA OIL AND GAS CONSERVATION COMMISSION

CHAPTER 4 – UNDERGROUND INJECTION

003 AUTHORIZATION FOR EXISTING ENHANCED RECOVERY INJECTION WELLS AND EXISTING DISPOSAL WELLS

- 003.01 Each enhanced recovery injection well authorized under order of the Commission prior to the effective date of this rule is an existing enhanced recovery well. Injection is prohibited in any existing enhanced recovery well unless the operator has included that well on an injection well inventory submitted to the Commission within one (1) year following the effective date of this rule. The inventory of authorized existing injection wells shall include each well name and number, location, Commission order number, date of order, maximum authorized injection rate and maximum authorized injection pressure.
- 003.02 Each disposal well being operated under order of the Commission prior to the effective date of this rule is an existing disposal well. Injection is prohibited into any existing disposal well unless the operator has included that well on an injection well inventory submitted to the Commission within one (1) year following the effective date of this rule. The inventory of authorized existing disposal wells shall include each well name and number, location, Commission order number or other authorization, date of order or authorization, maximum authorized injection rate and maximum authorized injection pressure.
- 003.03 Each commercial facility well being operated under order of the Commission prior to the effective date of this rule is an existing commercial facility well. Commercial injection is prohibited within six (6) months following the effective date of this rule, unless the operator files with the Commission a list of that commercial well and the well or wells meets or exceeds the requirements set forth in this chapter.
